

# User Manual

### Controller

When on, press and hold the Home Button on the controller for 3 seconds and release after the screen displays the  icon. The robot is now in the shutdown process. Once the screen turns off, this indicates that the process is complete.

### Robot Application Interface Description

You can swipe the controller's screen left or right to switch between applications. When the star background of each application rotates, it indicates that the application is running. If the star background is motionless, the application is not running. You can start or stop the applications by tapping the screen.

Ablix Chart	<p>Description: Standard flowchart programming software. Automatically generates C language. The PAD or Windows PC must be connected to the controller before it can be used.</p> <p>Download method: Search for "Ablix Chart" in the iPad App Store or Ablix Apps for installation and install. Go <a href="http://www.ablix.com">www.ablix.com</a> to download the installation package for Windows version.</p>
Ablix Scratch	<p>This robot programming app installed on the PAD is suitable for other users.</p> <p>Description: Scratch syntax programming software. The PAD must be connected to the controller before it can be used.</p> <p>Download method: Search for "Ablix Scratch" in the iPad App Store or Ablix Apps to download and install.</p>
Recommended Models	<p>iOS devices: iOS 8.0 and higher, iPad 4/iPad mini/Phone and later models.</p> <p>Android devices: Android 5.0 and higher.</p> <p>Windows devices: Windows 7 and higher, include Wi-Fi.</p>

### Connect the Robot

There are 2 patterns to connect mobile devices to the robot: Direct connection and Connection via router. Digital telecommunication and App Download can be implemented once the connection is successful. Take "Me Krypton" in iPad for example:

Direct Connection	<p>5. Obtain "Robot hotspot" name and "password", double click the password for a copy.</p> <p>6. Switch over to iPad wireless setting, find "Robot hotspot" name and click to connect, paste the previous copy password. Switch over to the computer, find "Robot hotspot" connection, an interface will be displayed on the screen after connecting successfully.</p> <p>The connection is finished.</p>
	<p>1. Connect iPad to the router.</p> <p>2. Enter "Settings" and click Wi-Fi and open it; find the router name which has been connected to iPad and connect the controller to the same router.</p> <p>3. Switch back to the internet router QR code and click "Open" / Meet "Keygen" to click the QR code and enter "Scan QR code" to scan the QR code on the screen.</p> <p>4. Click "Meet" / Open "Keygen" to click "Okay (once there is a prompt of "Connection Success")."</p> <p>5. An interface will be displayed on the screen after connecting successfully.</p> <p>The connection is finished.</p> <p>Notes: If the router has been connected to the internet, the robot will be connected to the internet as well; therefore, the controller will automatically verify whether the software has been updated.</p>
Connection via Router	

## Downloading and Deleting Programs

the program you downloaded. If you want to delete a program that has been downloaded to the robot, just press and hold the program page, and tap to delete in the pop-up dialog box.

### Abilix One-Year Limited Warranty

Ablitec guarantees that the accompanying hardware products and accessories are free from defects in material and workmanship for one year from the date of original retail purchase. Ablitec does not warrant normal wear and tear, or damage caused by accident or abuse. For service, please call Ablitec, or visit an Ablitec retail store or an Ablitec authorized service provider. The available services depend on the country or region where the service is requested. When you submit a valid claim pursuant to this warranty policy, Ablitec will repair, replace or refund your Brick Series Krypton Robot.

### Precautions

- Batteries and chargers should be replaced by an Abilix authorized service provider. Using the wrong type of replacement battery may result in an explosion hazard. Do not recycle or discard batteries with household waste.

### How to Insert the Battery

 Ask your local authorized distributor for information on technical support

**Statements:**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- Under Industry Canada regulations, this radio transmitter may only be operated using the antenna of a type and maximum (or lesser) gain approved for this transmitter by Industry Canada. To avoid potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (EIRP) is not more than the value of the maximum EIRP permitted for this transmitter.
- Conformément à la réglementation d'Industry Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour cet émetteur par Industry Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'égard d'autres utilisateurs, le type d'antenne et son gain doivent être choisis de sorte que la puissance isotrope rayonnée équivalente (PIRE) ne dépasse pas l'intensité maximale autorisée pour cet émetteur.
- This equipment should be installed and operated with a minimum distance 20cm between the radiator and your body. To avoid fire hazard, do not use the antenna with a distance minimum of 20 cm from any combustible material.
- Cet équipement doit être installé et utilisé avec un minimum distance 20cm entre le radiateur et votre corps. To avoid fire hazard, do not use the antenna with a distance minimum of 20 cm from any combustible material.
