The PAD or iPhone must be connected to the controller before it can be used. Download method: Search for "Meet Krypton" in the App Store or Ablix Apps to download and install.
Krypton Project Programming	This robot programming APP installed on the PAD is suitable for younger users and beginners.  Description: Robotice building sales and the programming interface. The PAD must be connected to the controller before it can be used.  Download method: Search for "Keypton Project Programming" in the IPad App Store or Abltx Apps to download end install.
Abilix Chart	This robot programming APP installed on the PAD or Windows platform is suitable for older users .

Abilix Chart	Description: Standard flowchart programming softwar Automatically generates C language. The PAD or Window PC must be connected to the controller before it can be us bownload method: Search for "Ablitic Chart" in the PAD Store or Ablit. Apps to downbad and install. Go years ablits com to download the installation package for it Windows version.
Abilix Scratch	This robot programming app installed on the PAD is suitable for older users.  Description-Scratch syntax programming software. The PA must be connected to the controller before it can be used. Download method: Search for "Abilis Scratch" in the iPs App Store or Abilis Apps to download and install.
Recommended Models	IOS devices: IOS 9.0 and higher, iPad 4/iPad mini/iPhone and later models. Android devices: Android 5.0 and higher. Windows devices:Windows 7 and higher,include Wi-Fi.

#### Connect the Robot

There are 2 patterns to connect mobile devices to the robot: Direct connection and Connection via router. Digital telecommunication and App Download can be implemented once the connection is successful. Take "Meet Kryptor" in IPad for example:

Ensure iPad is not connected to router before starting the

Connection	connection.  2. Enter "Settings" and click WI-Fi to turn on hotspot; the controller service as a net hotspot.  3. Switch over to the interface of QR Code and the controller service and the controller service and the controller service and CR code or the screen.
------------	---

5. Obtain "Robot hotspot name" and "password", double Direct Connection

5. Uotian "Nocoir notopo Iranie" and "password", doubte dick the password for a copy.
6. Switch over to iPad winelses setting, find "Root hotspot name" and cick for a connection, paste the previous copied password. Switch over to "Meet Krypton" and click "Next" for a connection. An interface.
Will be displayed on the screen after connecting successfully. The connection is finished.

 Connect iPad to the router.
 Enter "Settings" , dick Wi-Fi and open it; find the router name which has been connected to iPad and connect. the controller to the same router.

3. Switch back to the interface of QPC code.

4. Open These thy typican to find and click the scor.

\*Scan QPC code to scan the QPC code on the screen.

\*Scan QPC connections and cick "Oky "Once there is a prompt of "Connections Success."

6. An interface "will be displayed on the screen after connecting successfully. the controller to the same router.

he connection is finished

Notes: If the router has been connected to the internet, the robot will be connected to the internet as well; therefore, the controller will automatically verify whether the software has

## Downloading and Deleting Programs

Programs written by Krypton Project Programming , Ablix Chart or Abilix Scratch can be downloaded and run on the robot. Once a program is written, you can enter the project name in the inout box of the programming interface. Then, find and click the " or " " too nine's sure that the robot and PADIVindows PC are connected). When the PADIVindows PC and the robot on the robot and PADIVIndows PC are connected). When the PADIVIndows PC and the robot on the robot and page 100 to 10 both show that the download is successful, you can find the application interface on the robot with the same name as the one of the program you entered. This is the program you downloaded. If you want to delete a program that has been downloaded to the robot, just press and hold the program page, and tap to delete in the pop-up dialog box.

## Abilix One-Year Limited Warranty

Ablix guarantees that the accompanying hardware products and accessories are free from defects in material and workmanship for one year from the date of original rotal purchase. Ablix does not warrant normal wear and tear, or damage caused by accident or abuse. For service, please call Ablix, or visit an Abilix retail store or an Abilix authorized service provider. The available services depend on the country or region where the service is requested. When you submit a valid claim pursuant to this warranty policy, Ablix will repair, replace or refund your Brick Series Krypton Robot.

- The product is not intended for children under 3 years old
- Check regularly for damage to the cord, plug and other parts. If damage is found, discontinue use until repairs have been completed - Only connect the charger to Class II equipment bearing the symbol
- Do not connect the controller to more than the recommended number of power supplies
- Remove rechargeable batteries from the controller before charging - Only charge rechargeable batteries under adult supervision
- -Insert batteries with the correct polarity
- Do not short-circuit the supply terminals
- The charger is not a toy
- Disconnect the product from the charger and remove the battery before

Do not use liquids to clean rechargeable batteries and chargers.
 sconnect the power supply before cleaning.

- Batteries and chargers should be replaced by an Abilix authorized service vider. Using the wrong type of replacement battery may result in an explosion hazard. Do not recycle or discard batteries with household waste

## How to Insert the Battery

(2) Gently press down until you hear the battery click into place
